An indirect kick can only go into the goal if it has subsequently been touched by another player before it enters the goal. The ball must be stationary for both types of kicks.

The Penalty Kick

A penalty kick is awarded either when a defensive player fouls an attacking player or commits a handball in his/her team's penalty area. The penalty kick is placed at the penalty spot, and all players on both teams must remain outside the penalty box during the shot. They may enter the box immediately after the shot is taken. A goal kick is awarded when the offensive team plays the ball out of bounds over the defensive team's goal line. After the ball is out of play, the defender or goalkeeper may place the ball anywhere within the six-yard goal box and kick the ball back into play.

The Corner Kick

A corner kick is awarded to the offensive team when the defensive team plays the ball out of bounds over its goal line. The ball is placed within the corner area and is kicked back into play by the offensive team. Players can score directly off a corner kick.

The Assistant Referees

The assistant referees are primarily responsible for assisting the referee in performing his duties - this includes signaling with a flag when a ball goes out of play, when a player is fouled, or when a player is in an offside position

Official Rules of Table Tennis

1. GAMES ARE PLAYED TO 11 POINTS

A Game is played to 11 points. A Game must be won by two points. A Match is generally the best three of five Games.

2. ALTERNATE SERVES EVERY TWO POINTS

Each side of the table alternates serving two points at a time. EXCEPTION: After tied 10-10 ("deuce"), service alternates at every point. Can you lose on a serve in ping pong? Yes! There is no separate rule for serving on Game Point.

3. TOSS THE BALL STRAIGHT UP WHEN SERVING

How do you serve the ball in ping pong? Hold the ball in your open palm, behind your end of the table. Toss at least 6" straight up, and strike it on the way down. It must hit your side of the table and then the other side. NOTE: Once the ball leaves the server's hand it is in play, and so counts as the receiver's point if the ball is missed or mis-hit.

4. THE SERVE CAN LAND ANYWHERE IN SINGLES

There is no restriction on where the ball lands on your side or your opponent's side of the table. It can bounce two or more times on your opponent's side (if so, that's your point), bounce over the side, or even hit the edge.

5. DOUBLES SERVES MUST GO RIGHT COURT TO RIGHT COURT

The serve must bounce in the server's right court, and receiver's right court (NOTE: landing on center line is fair). Doubles partners switch places after their team serves twice.

6. A SERVE THAT TOUCHES THE NET ON THE WAY OVER IS A "LET"

Can the ball hit the net in ping pong? Yes, during a RALLY, if it touches the top of the net and then otherwise lands as a legitimate hit. BUT not when serving. If a served ball hits the net on the way

Table Tennis

over and otherwise legally bounces in play, it's a "let" serve and is done over. There is no limit on how many times this can happen.

7. ALTERNATE HITTING IN A DOUBLES RALLY

Doubles partners must alternate hitting balls in a rally, no matter where the ball lands on the table.

8. VOLLEYS ARE NOT ALLOWED

Can you hit the ball before it bounces in ping pong? No. In regular tennis you may "volley" the ball (hitting the ball before it bounces on your side of the net). But in table tennis, this results in a point for your opponent. NOTE: When your opponent hits a ball that sails over your end of the table without touching it and then hits you or your paddle, that is still your point.

9. IF YOUR HIT BOUNCES BACK OVER THE NET BY ITSELF IT IS YOUR POINT

If you hit the ball in a rally or on a serve and it bounces back over the net after hitting your opponent's side of the table (due to extreme spin), without your opponent touching it, that is your point.

10. TOUCHING THE BALL WITH YOUR PADDLE HAND IS ALLOWED

What happens if the ball hits your finger or hand during a ping pong rally? If the ball touches your PADDLE hand and otherwise results in a legal hit, there is no rule violation and play shall continue as normal. Your paddle hand includes all fingers and hand area below the wrist. But what if the ball touches a player's body anywhere else during a ping pong rally? You may not touch the ball with your non-paddle hand for any reason. It will result in a point for your opponent. BUT if your opponent's hit sails over your side of the table without touching it, and hits any part of you or your paddle, that is still your point.

11. YOU MAY NOT TOUCH THE TABLE WITH YOUR NON-PADDLE HAND

You may touch the ball or the table with your paddle hand (after reaching in to return a short serve, for example), or other parts of your body. NOTE: If the table moves at all from your touching it during a rally, that is your opponent's point.

12. AN "EDGE" BALL BOUNCING OFF THE HORIZONTAL TABLE TOP SURFACE IS GOOD

An otherwise legal serve or hit may contact the top edge of the horizontal table top surface and be counted as valid, even if it bounces sidewise. The vertical sides of the table are NOT part of the legal playing surface.

13. HONOR SYSTEM APPLIES TO DISAGREEMENTS

If no referee is present during a match and the players disagree on a certain call, the "honor system" applies and the players should find a way to agree, or play the point over. Ping pong carries a tradition of fierce but fair play. Help us keep it that way!

MISCELLANEOUS RULES

Sinking the striker costs you one piece and your turn. But, if you sink piece in the same shot, then two come up and you shoot again. After sinking the striker, your opponent places the due piece(s) within the center circle. If you haven't sunk one yet, you owe one.

If while shooting for the queen you also sink one of your pieces, the queen is automatically covered, no matter which went first. If a piece jumps off the board, it is placed on the center spot. If pieces land on end or are overlapping, they are left that way.

If the center spot is partially covered when replacing the queen or a jumped piece, the piece should cover as much red as possible. If totally covered, the piece is placed opposite the next player behind the red spot. If you sink your opponent's piece, you lose your turn. If you sink their last piece, you lose the board and three points

Playing Rules

TTU Intramural chess is self-officiated. Players should review the rules prior to play and honor the legitimate calls of their opponents. The Intramural Sports Office will settle disagreements that cannot be resolved in a reasonable time.

Initial Setup

Overview

- ✓ The goal in chess is delivering a checkmate – trapping your opponent's king.
- ✓ Chess is played between two players each having 16 chess pieces (white/black). Players alternate turns moving their pieces on a 64-square board of alternating dark/light colors. The game ends when one side's king piece is "Checkmated".

Determining who Starts

- ✓ Players will come together at the beginning of the contest to play paper-rock-scissors to determine who will play white.

General Rules

- ✓ White moves first and players take turns alternately moving one piece at a time; movement is required. If it is a player's turn to move, is not in check, and has no legal moves, it is a "Stalemate", and the game will end. Points will determine the winner.

Chess

✓ Each type of piece has its own method of movement. A piece may be moved to another empty position or may capture an opponent's piece, replacing on its square.

In Game Rules

✓ Check:

- o When the king of a player is in a position to be captured by a piece of the opponent, one says that the king is in check. It is considered good manners to say check when one checks ones opponent.
- o It is not allowed to make a move, such that ones king is in check after the move. If a player accidentally tries to make such a move, he must take the move back and make another move (following touch move rules).
- o Note that there are three different possible ways to remove a check:
 - Move the king away to a square where he is not in check.
 - Take the piece that gives the check. (In case of a check, given by a rook, bishop or queen)
 - Move a piece between the checking piece and the king.

✓ Checkmate:

- o When a player is in check, and he cannot make a move that removes his king from the check, then he is mated. The player that is mated lost the match, and the player that mated him won the match.

✓ Stalemate:

- o When a player cannot make any legal move, but he is not in check, then the player is said to be stalemated. In a case of a stalemate, the winner will be determined by the points of captured pieces.

✓ Touch Move:

- o Chess being a mental game, it is expected that players will consider their moves in advance. On a player's move, if they touch their own piece, they are required to move that piece, unless it has no legal moves. If they touch an opponent's piece, they are required to take that piece if they may legally do so. A move is not final, however, until the player lets go of the piece.
- o As some of our IM players may be newer to the game and trying to learn/improve we hope opponents with more experience will be lenient when it comes to such intricacies and help explain some of the finer details.

Winning the Game

- ✓ The match is over when a king on either side is captured
- ✓ If time expires, the player with the most points from captured pieces wins.
- o In the event of a tie in points, the next player to capture an opponent's piece will be the winner.
- ✓ In the event of a Stalemate:
 - o The player with the most points from captured pieces will be the winner.
 - o If there is a tie in points, the player with the most pieces still on the board will be the winner

Tug of War

LIST OF ORGANIZING Co-ordinator

Suraj : 7970443954

Baliram : 9771142807

Basic Tug of War Rules

The Rope

The game involves usage of single equipment i.e. a rope. There is a red mark made in the middle of the rope. This red mark on the rope needs to be at a perpendicular angle to the exact center point on the ground, before the commencement of the game. A white mark is made exactly 13 feet from the red mark on either sides of the rope. The game is won when either side with this white mark crosses the center point.

Teams

According to the rules of tug of war, each team can accommodate a maximum of 8 members. However the combined weight of these members should not exceed the weight determined for the particular category.

Field and Marking

The game has to be played on a flat grassy patch of land. A line referred to as a center line is marked on the playing zone and the rope is placed in a manner that its center mark should align the center marked on the ground. On either sides of the rope at the distance of 4 m from the center line, 2 more marks need to be made. This is the point where in the first member of each team will stand.

How to Play

As mentioned earlier, the center of the rope should align with the center marked on the ground. As soon as the referee blows the whistle, each team can start pulling the rope into their territory. The objective of the game is for each team to pull the rope along with the members of opposition team to their side. As soon as the second mark on the rope from the center red mark crosses over to center line, the team to pull the rope to their area wins the game.

Competition

The tug of war competition requires a judge. There are 3 different commands that the judge gives to the players. The judge first announces "Pick up the rope", he then says "Take the string", and finally he tells the players to "Pull". Once the pull command is said out the teams start pulling the rope. If a member of the team falls down that member is given a caution. Each team is allowed two cautions before getting disqualified.

Fouls

There is a particular technique that needs to be applied while playing this game, if not then there will be a foul which can call in for disqualifications. For e.g. lowering your elbow below the knee level while pulling the rope is considered to be a foul and is called 'locking'. Touching the ground for a longer period of time is also considered as a foul
